## Customer Reviews

I bought this book for my son, who just started playing cornet 4 months ago; however, he's played piano for years, and his father and I are both professional musicians, so he has some skills that are advanced. I was looking for a book of popular tunes within the range of a beginning student. Many collections like this are advertised as, "easy," but tend to be too high and too rhythmically-challenging for a young student. From the pages I could view online, I knew that at least some of the selections would be accessible to my son and decided that as long as he was able to play some of the music now, it would be worth purchasing. It's an odd collection of pieces that are very simple to play (Blue Danube, La Donna e Mobile) and others that are quite high (Pachelbel's Canon goes up to a high A; Handel's Water Music to a G at the top of the staff) for a

first- or even second-year student. I also found the layout to be odd. Some songs are only 16 measures long, but the staves are spread out to take up an entire page.

The music is good, but I'm glad I have the 8.9" Kindle. I've only been playing the trumpet for a few weeks, but I can play a few of the tunes.

Even though the music was good, most of the tunes were the ones I wanted. The print on Kindle was very small. As I could not print of kindle using the music is near impossible. I think if music is going to be sold on kindle you should at least be able to use it.

Nice sheet music to help build your skills. Starts simple and works up. A great addition to any music library and highly recommended.

So fun! He has mastered a few and as a beginner it is nice to have some that can be mastered and are not baby songs!
