Interactive Citation Workbook For The Bluebook: A Uniform System Of Citation, 2015 Edition

Synopsis

Nearly 140 Legal Research and Writing programs already rely on the Interactive Citation Workbook (ICW) to provide a self-paced, pedagogically sound, and mentally stimulating way for students to learn citation. Available in both Bluebook and ALWD versions, the annually revised ICW uses a building-block approach to learning citation. Individual chapters include explanatory text with examples, a checklist summary of the text, and a citation exercise for practicing and reinforcing the rules covered in the chapter. Students can complete a citation exercise either in their ICW Workbook or in the newly updated and enhanced online Workstation, accessible via Lexis Advance. Doing the exercises online provides immediate feedback for both correct and incorrect answers. For incorrect answers, references to the citation rules needed to correct the answer allow students to become familiar with using their citation guide as a reference and further enhance the learning experience. Please contact your LexisNexis Publishing Representative to request copies of our new student and faculty user guides for the online Workstation. The eBook versions of this title feature links to Lexis Advance for further legal research options.

Customer Reviews

Before buying this book, I was baffled when it came to understanding the "The Bluebook." After purchasing, reading and doing the exercises, Interactive Citation Workbook is one of the best books

I've ever purchased. I loved how the Author states before continuing with the chapter you are about to read, turn to The Bluebook to read up on the Rules he's referencing in each chapter. Very easy to follow, I had no problems at all and it just 'level-up' my understanding of the Bluebook's Rules. Totally recommend it.

The Workbook itself deserves 5 stars. It does a fantastic job of breaking the Bluebook lessons down into easily digestible chunks. I highly recommend this resource for anyone wanting to improve on their cite checking or general knowledge of the Bluebook. However, I am only giving this purchase a 3-star rating because buying it here does not grant the purchaser access to LexisNexis' ICW page where the book's exercises can be graded. I feel like I understand the Bluebook much better now, but without the ability to grade the exercises it's difficult to accurately gauge one's skill level.

Be careful when ordering the Kindle edition of this book, it is not the same as the written version. I didn't notice the difference until it came to do the assignments, and they were completely different than what my professor had from the written format of the same book. Wonderful, now I have purchased the kindle format, and have to spend an additional 50 dollars for the written book. Ugh.

This book is a great supplement to the official blue book. They walk you through steps that are extremely confusing. If you take the time and do the problems in the workbook, actually using the Blue Book will be a breeze! The book was exactly what I ordered. It was in great condition, no markings, and the newest edition. The book shipped very quickly- I was definitely pleased and would order again.

This is the 2011 version. The chapters are the same but the exercises in the book are different. I needed the 2013 version to do the exercises.

Thank you for a used book, it was practically new. It also matched the Blue Book of Citations 18th edition I also purchased. I love it.

Awesome book if used with lexis so you can check the answers to the problems :) I liked the way it was organized as well.
