## **Customer Reviews**

A very humorous and well-written book. I believe that most of my "children" have read this book many times! I have been trained well. Beautifully edited, I look forward to reading more from this author.

Karen Davison really knocks it out of the park with A Dog's Guide to Humans! While it is written in a humorous and engaging style, this book focuses on the relationship between a loving dog owner and their pet. Building on that relationship in a positive way means a happier dog and a happier you. By focusing on the good and bad that can arise between owner and pet, from a dog's perspective, the reader gets an idea of the changes they can make to create a better and more enjoyable

lifestyle for both parties. What a cute way to go about it!

You do not need to be a dog owner to enjoy this book but if you do have a dog, or ever had one, the you will LOVE this. The book is simply funny because it is based in truth .... or at least what seems like the truth.

If you have ever shared your home and your life with a dog, you need to read this fun little book. It will help you not only understand your furkid, but will also tell you how they perceive us strange but lovable creatures. If you love a dog you need this book!

Note: I was provided a copy of this book by the author for purposes of review. My views are my own. As the long time human companion of several wily rescues, I can vouch for Ms. Davison's expertise in this area. While we are training them, we may not realize that our dogs are training us. Told from the perspective of a champion canine manipulator, this fun, fast read explains the basic psychology behind canine actions and shares the things owners do that contribute to misbehavior. This book is for anyone who has ever been frustrated by their pooch. If you've mastered the art of setting consistent expectations and appropriate boundaries with your dog, "A Dog's Guide to Humans" will still have you laughing.

Love, Love, Loved it!!! This is a great book. I highly recommend this to anyone of any age you love's animals. Especially dog's. If you have a dog or plan to get a dog. This is a must read. Very inciteful.
